

## Winter Series: Prussian Blue 1 to 15

The Prussian Blue Winter series recently shown in 'Enso' at Waterside Arts, Sale has its origins in a meditation practice. Begun as Autumn faded into Winter, the pieces reflect a pared back time of stillness before regrowth. Predominantly employing blues, the work maximises upon their capacity to be calming, mesmerising and meditative, a capacity reinforced by the use of a fluid horizontal, a mark or line which can be read as tranquil. This series is ongoing.
